MULTICUT 650 PROLINE HIGH OUTPUT WITH THE CLEANEST FINISH

The Multicut 650 PROLINE is boosted with additional output capability, enabling the comfortable clearance of more than 8 hectares per hour.

A walking axle design is standard across the full width of the machine delivering exceptional ground contour following and reduced shock loading in harsh field conditions.

Wider wheels are also fitted to add additional comfort and improved performance.

Spearhead's renowned durability is built into this mower and the evenness of spread from the five rotors is unrivalled leaving a clean finish and high output unmatched by competitive three rotor machines of the same width.

With a six gearbox driveline with more power than previously, with complete slip clutch protection on all driveshafts, the Multicut 650 PROLINE is designed to withstand the most demanding of work environments with exceptional reliability and durability certified with Spearhead's extended 7 year gearbox warranty whilst allowing enhanced forward speeds and fuel efficiency.
